# Printing and/or Exporting an Expired Recommission Report

The Expired Recommission Report enables you to view the number of failed or expired recommissioning attempts within your specified time period.

1. To begin, open the FMD History from the ProScript Connect Main Screen by clicking the **[ProScript Connect]** menu button and selecting the *FMD History* menu item.
2. From the FMD History, use the *Filters* to refine the grid to display the records to include in your report output.

3. Select the **[F11 – Reports]** button, and select the *Print Expired Recommission Report* menu item from the drop-down.
4. The Expired Recommission Report preview opens. From here, you can:
   o Use the print icon to print the report
   o Use the floppy disk icon to save the report to your computer.
