

Workflow Control Bar

The Workflow Control Bar displays at the top of the Workflow Manager and gives you the ability to manage the widgets on display at a branch level, navigate away from a 'today' view, record and view fridge temperature(s), search for a widget/widget item and refresh item statistics.

The screenshot shows the ProScript Connect interface. At the top, there is a search bar (CTRL+S) and a user profile for 'Responsible Pharmacist Victoria Smith | User The Supervisor'. Below this is the 'Workflow Manager' section, which includes a 'Manage Widgets' button, navigation arrows, the date '04 January 2018', and a 'Search Widgets' field. To the right of the search bar, there are temperature indicators: 'Max: 3.00°C' and 'Min: 2.00°C', along with a 'Refresh' button.

The main area of the interface is divided into several widget panels:

- Hand Over:** Contains a note: 'Remember to count the cash in the tills' and a timestamp: 'Last Edited on 03/01/2018 at 14:40 by The Supervisor'.
- Prescriptions Ready For:** A list of prescription categories with counts:
