

## **De-Registering an MLP Patient**

De-registering a patient will send a push notification to the patient's device if they have push notifications enabled.

1. From the MLP Manager, click the *Registration Requests* tab.

2. The *Registration Requests* tab displays. Amend the *Status* filter to *Patient Registered* to display all patients marked as **Patient Registered**.

3. Select a patient and press [F11 – Deregister].

4. A pop-up window displays, asking whether you want to change the selected patient registration request to deregistered.

- 5. Click **[Yes]**.
- 6. The patient registration request is now marked as Patient Removed by Pharmacy.
