

Stock Holding

The *Stock Holding* section within the Stock Record Card is where you'll find your stock levels in packs and units, including how much stock you're currently holding, what is due in and on the *Order Pad*, and any owings.

You can also utilise this section when completing a stock count to update the date and time when the stock was last counted, and to identify an additional location where users can find stock in your pharmacy.

Field/Section	Description
[Consolidated]	The <i>[Consolidated]</i> text before the <i>Stock Holding</i> heading indicates your application is in consolidated stock mode, meaning your stock levels and usage figures are combined for all drugs in the same family and category. In an individual item's Stock Record, the figures displayed will vary depending on the item's pack size as seen in the table below. In the <i>Stock Holding</i> section, the below fields will alter if you are in consolidated stock mode. In non-consolidated stock mode, the figures displayed in these fields are at pack level.

	<ul style="list-style-type: none"> ○ Stock Holding ○ On Order Pad ○ Due In ○ Owing 															
	Total units = 160															
	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 40%;">Item pack size</th> <th style="width: 30%;">Pack(s)</th> <th style="width: 30%;">Unit(s)</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">16</td> <td style="text-align: center;">10</td> <td style="text-align: center;">0</td> </tr> <tr> <td style="text-align: center;">32</td> <td style="text-align: center;">5</td> <td style="text-align: center;">0</td> </tr> <tr> <td style="text-align: center;">100</td> <td style="text-align: center;">1</td> <td style="text-align: center;">60</td> </tr> <tr> <td style="text-align: center;">1000</td> <td style="text-align: center;">0</td> <td style="text-align: center;">160</td> </tr> </tbody> </table>	Item pack size	Pack(s)	Unit(s)	16	10	0	32	5	0	100	1	60	1000	0	160
Item pack size	Pack(s)	Unit(s)														
16	10	0														
32	5	0														
100	1	60														
1000	0	160														
Price	The monetary value displayed here is calculated based on your current stock holding.															
Stock Holding	Displays how much available stock you have in packs and units. The value in these two fields will update when stock is received and after dispensing, but can be amended manually if required.															
On Order Pad	Shows the number of packs currently on the <i>Order Pad</i> .															
Due In	The transmitted and accepted quantity as taken from <i>Goods In</i> .															
Owing	Shows the number of packs and units that are owing.															
Additional Stock Loc.	Use the drop-down menu to select an additional stock location – such as a stock room – where users will be able to find additional stock that is not sitting in the usual place within your pharmacy. The locations that appear here are created and managed in the Locations Manager.															
Stock Counted	Select the [Stock Counted] button to update the adjacent field to the current date and time as a way of confirming the last stock count. After selecting this button a pop-up will display to confirm the stock count has been registered, and will update the <i>Stock Status</i> to <i>Counted</i> . You will need to use the [F10 – Save] button on the Stock Record Card to save your changes.															
Date Last Received	Shows the date and time the item was last booked in via <i>Goods In</i> .															

Stock Status	<p>The current stock status displays here. Available statuses include:</p> <ul style="list-style-type: none"> ○ Counted: The stock has been counted. Updated after the [Stock Counted] button has been selected. ○ Estimate: Automatically updated after the number of days specified within the <i>Reliability Days</i> application setting have elapsed since the stock was last counted. ○ Uncounted: Automatically updated after the number of days specified within the <i>Estimate Days</i> application setting have elapsed since the status was updated to <i>Estimate</i>. ○ Booked In: Stock has been booked in via <i>Goods In</i>.
