

Top 100 items dispensed report.

The report gives you an indication of your stock usage in the PMR based on the product choice selected for dispensing.

Go to the ProScript Connect menu in the top left-hand corner, then select Stock manager.

Once the Stock Manager opens, select Batch Stock update, then Select Top Movers. Select the date range and enter the number of lines you want to view, e.g. 50, 100 etc. You can then choose either step 5 for the results to be produced in excel or Step 6 for the results to be loaded as a document preview.
