

View PharmOutcomes Events in the Event Log Manager

View Events in the Audit Event Log Manager

1. To begin, access the Audit Event Log Manager from the top left-hand corner of the ProScript Connect Main Screen, by selecting the **[ProScript Connect]** main menu button and selecting *Audit Event Log Manager*.
2. Use the filters to select a date *Period* and to select the *Event Log Source* as *PharmOutcomes*. The Audit Event Log Manager displays with a list of all events performed within your chosen *Period*.

The screenshot shows the ProScript Connect Event Log Manager interface. The top navigation bar includes 'ProScript Connect', a search bar, and user information: 'Responsible Pharmacist Victoria Smith | User Supervisor'. The left sidebar lists various shortcuts like 'Redeem Owings', 'Reprints', 'Overdue Scripts', etc. The main area has a 'Filters' section with dropdowns for 'Event Log Source' (set to 'PharmOutcomes') and 'User' (set to 'All'). Below the filters is a table of event logs.
