

Messages Manager

The Messages Manager acts as a message log for changes made on any of the <u>Head</u> <u>Office</u> components, such as the <u>Branches Manager</u>, <u>Groups Manager</u> or <u>Branch Users</u> <u>Manager</u>. It includes a log of the templates that have been sent out, including to which branches, and their current status.

Pressing **[F2 – Send/Receive]** enables you to push and receive any outstanding messages and update all changes made on either a branch, group or branch user.

You can access the Messages Manager from the top left-hand corner of the ProScript Connect Main Screen by clicking **ProScript Connect** > **Messages Manager**.
