

Creating an Owing from Reprints

ProScript Connect enables you to create an Owing, which consists in dispensing a partial quantity of a prescription item to a patient, with the outstanding quantity to be redeemed at a later date. You can create an Owing from Reprints, as shown below, or from the Patient Medication Record.

1. From the ProScript Connect Main Screen, select the **Reprints** shortcut or click **F6**. The Reprints module opens in a new tab.

The screenshot displays the ProScript Connect Reprints module. The interface includes a sidebar with shortcuts (e.g., Redeem Owings, Reprints, Ordering), a top menu bar with functions (e.g., F1 - View PMR, F2 - Create Owing, F3 - Edit Owing), and a main content area. The main content area features a table of reprints and a detailed view of a selected item.

2. From Reprints, highlight the item for which you want to create an owing and click **F2 - Create Owing**. The Edit Owing Quantity screen is displayed.

Edit Owing Quantity

Total prescribed quantity: 28

Enter quantity to dispense now

✓ F10 - OK ✗ Cancel

3. Enter the quantity you want to dispense now, then click **F10 - OK**. The system will generate the relevant Owing label for the selected item and any remaining labels for the selected patient e.g. the bag label.
4. The Reprints Main Screen is displayed with the selected item marked with the Owing **OW** tag, and the label preview in pale yellow. You can now redeem the Owing, either from the Patient Medication Record, Reprints or Redeem Owings.
